

JA7GAX runs through Japan

Nag, JA7GAX, was on the air at various places after his attendance at KCJ general meeting in FO. He toured around the western part of 6 land, and got home through the coastal region of Japan sea (4 land), 3, 2, and 1 lands. He QRVed at 131 AJA districts and made 810 QSO's in total.

The new member, first after the regulation change

KCJ welcomes a new member in succession last month. Hide, JE3ECD, at Higashiosaka (OS) started radio at 1973 and, after some QRT period, he restarted a station for more than ten years. He run CW mode for about ten years.

District meeting in 8 land

The 8 area meeting was held at Nigorigawa hot spring in Mori-cho near Hakodate with 7 members, their families and a few non-members. They discussed about portable operations. An 8 area branch of KCJ is planning to make the meeting so attractive that more non-members want to participate.

Pse check in at OAM(on air meeting)

OAM is used to be held at 0900 JST on every Sunday except when a big contest is held. Frequency is 7.015 MHz. Please show up and let us know you are still active on the air.

New cities?

According to an unconfirmed information, Minamiarupusu city will be formed by the consolidation of Shirane town and other 6 towns and villages. Besides, Amakusa city will be consolidated from two cities and 6 towns Jan. 2005 and Nishiharima city from three cities. Anyway, we need the confirmation by government. JCC/JCG hunters have to keep their eyes on this situation in a couple of years. Higashikagawa city will start next Apr., by the way.

Flying Horse 2003 - Last year published

US Call Book comes to end due to the declining of its circulation because QTH seeking is well supplied on web sites in the internet. It has a long history and was the necessity of DXer. Two books, one for DX and other for USA addresses, were published every year and replaced with CD ROM later. Last publication, the 2003 version, will come out at the end of this year.

Short break

JA1AYC: Have been feeling out of sorts. But as for speaking, it is glib so I often am on SSB mode. I got my waist hurt by keying for a long time. Doctor warns arm muscle relates to that of waist and legs. Is this a kind of an occupational disease?

JQ1NGT: It got cooler at dawn as if that fierce heat in summer stopped suddenly by magic. Hearing 40 mtrs, I think the fall propagation comes. Wonder how many DXs I can hear this year. My log indicated the condition began to go down a few years after the peak of the cycle 22.

JG3LGD: Have been struggling to complete Class EX of JAIA award in Aug. and Sept without success. Even though the condition started to grow up in Sept., there remained little time.

JH3EZV: Could not attend the general meeting of KCJ. Nag JA7GAX stopped by on his way home. I got one point for member eyeball QSO score.

KCJA – Applications at a rapid pace.

JH1XSB KCJA200 #119 Sept. 11th. He got 217 points using 1.9 through 24 MHz bands.

JA1GQV KCJA350 #058 Oct. 1st. He got 357 points on 12 bands, 1.9 through 430 MHz.

7N2JZT KCJA450 #034 Oct. 14th. The result of the activity on 12 bands, 1.9 to 430 MHz, including WAJA on 7 to 28 MHz bands except on 24 MHz.

JJ2SQJ KCJA100 #265. He obtained this using 1.9, 3.5 7, and 21 MHz bands.

From JA1AYC, the editor of The Key.

The typhoon 21 hit Kantou district (1 area). The number of typhoon hitting Kantou this year is larger than that in usual year. Hope members were not suffered damage on antennas. The climate in coming winter was predicted to be warm due to El Ni~no phenomenon. Wonder how it influences the condition on the air. 8G1OGA, the station for 75th anniversary of JARL, got started to be on the air. FB DX.

KCJ NEWSLETTER No.10 Dec., 2002.
