## KCJ celebrates the 30<sup>th</sup> Anniversary

On 19<sup>th</sup> Sep last year, KCJ became 30 years old. Some special events have been being prepared.

First of all, "Gold Callsign Plate" was given to the members.

Second, "Special QSL Card" was designed. Some old photos are on the card.

It is said KCJ members are not active on the air recently... Expected much more active QRV by KCJ members !

## JA7GAX's IOTA Pediton

He returned from IOTA Pedi around the Pacific Islands (from 2006 Dec. to 2007 Jan.).

He operated as follows;

3D2CX OC-016 Viti Levu & Levu Group

5W0CX OC-097 Samoa Islands

KH8/JA7GAX OC-045 Tutuila Island

KH8/JA7GAX/M OC-077 Manua Islands

A35TN OC-049 Tongatapu Group

A35TN/N OC-191 Niuatoputapu Island

A35TN/V OC-064 Vava'u Group

QSL information : SESA only (no via BURO)

## Donor for All JA Contest

A plaque which KCJ offered as a donor was sent to JK3HLP/3, who became 1<sup>st</sup> in the category of Single Operator All Band (-50watts).

## New Member !

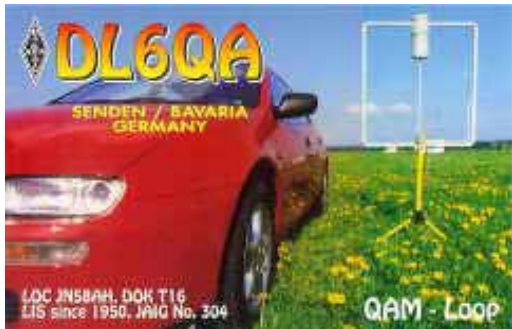

KCJ welcomed **DL6QA (Fred Flakowski)** as an Associate member.

Fred used to live in Kobe for five years in course of the World War II. Since the war ended, he has visited Japan more than twenty times.

He knew of KCJ by the contact with JA2FEA on the air.

His Web site;

=> [www.mydarc.de/DL6QA](http://www.mydarc.de/DL6QA)

**7M4XGY (Toshihiro Kaneko)** joined KCJ. He is 72 years old and has seven grandchildren. He was licensed CW in 2007. He also likes driving and taking photographs.

## Visiting Denmark with XYL

by JJ1INO

I visited Denmark and Italy with my XYL.

On the first day, we arrived at Copenhagen Air Port. We were going to Copenhagen Central Station, which is only three stations from the airport. We asked a station staff if the train would go to Central Station (in English). "Yes." answered he. So we got on the train. We guessed it would not take long time to arrive Central Station, but it took ten minutes to get to the first station and twenty minutes to the second station... I asked a young man if the train would go to Central Station. He answered "Yes". After some more minutes, we arrived at a station.

We found a taxi and showed him a name of our hotel. He looked a little confused and said, "This hotel is in Copenhagen." He continued, "Here is Sweden."

It turned out that the station we reached was "Malmo Central Station in Sweden." (We were going to "Copenhagen Central Station.")

We had mistaken the platform at the airport and got on a wrong train to Sweden !

It has already got a little dark and we were afraid that our late arrival would make the reservation canceled.

I asked the taxi driver how much it would cost to Copenhagen. It was natural for him to answer "I don't know." We decided to ask him to drive us to Copenhagen.

The driver drove at a speed of 120km/h. Finally we managed to arrive at the hotel, but we were short on money. So my XYL went out to ATM and I remained seated in the taxi. The driver required us to pay in Euro but the ATM there dealt with only Danish Krone. At last, he agreed and we paid in Krone...

It was a great expense we had not expected, but we tried to think that we could enjoy an extra tour to Sweden...

## VOICE OF MEMBERS

### Short Break (2007-Jan.)

**JA1TCF:** Recently more than 80% of my QSOs are on SAT. The last one prefecture I need to complete WAJA award is Ehime! I'm looking forward to GUD CONDX.

**JA5CUX:** I'd like to operate mainly on SAT to get more KCJA points this year.

\*\*\*\*\*

\*\*\*\*\*

**JE6QFP:** QRV on SAT enabled me to work KCJA-550 & 575. In order to achieve the next stage, I need to operate on V/UHF bands. Can I get one point up a year? Becoming old is the hardest problem to solve, hi. Do you know of any medicine to become young ?!

**JH7VOT:** I'd like to increase my AJA points this year. I'm going to keep my antenna in good condition and take part in a lot of contests.

**JA8PON:** The season has come when I enjoy listening to Low Bands, having a cup of hot SAKE on the desk.

**Short Break (2007-Feb.)**

**JA1BML:** Last Dec. I visited Berlin, Dresden and Prague. The climate in Europe was so mild that I didn't need a coat.

**JJ1KXB:** I've been crazy about SAT. Even in the bad CONDX, I enjoyed a lot of SAT QSOs. I have worked more than 2000 SAT QSOs in a year and completed SAT-JCC-300 (CW-Only) in Dec.2006.

I'm looking forward to work new JCC and also DXCC especially 1A4A, VU7LD this year.

**JM1HUX:** I operated from eight Roadside Stations. ("Roadside station" is composed of facilities where an independent device in a basic rest facility and the parking lot, the rest room, and the telephone was performed.) I made four eyeball-QSOs and three of them were very new stations for me.

**JA2MYA:** I worked 5,244 QSOs last year. 255 of them were Overseas, including four new entities such as 3Y0X, 4O3T, KH8SI and VU7LD.

**JH4RGH:** On 2<sup>nd</sup> of Jan, I worked 350 New Year Party QSOs, keeping seated for 27 hours in front of my RIG !

**JA5CUX:** I started counting IOTA points. I came to know the knack of SAT operation. I've worked 21 QSOs.

**JA7TJ:** I worked about 4,000 CW QSOs last year. I'd like to enjoy CW more than 300 days this year. See you on the air.

**Short Break (2007-Mar.)**

**JA1BML:** I made a new antenna system for mobile SAT operation, but I have little time to use it. And I upgraded my home antenna system on Jan.25<sup>th</sup>. (6-ele & 3-ele on a rooftop tower)

**JA5CUX:** It takes me about ten months to confirm QSL cards via buro.

I took part in the Top Band Contest and worked eighteen stations.

**JE6QFP:** Last month all my family suffered from Norovirus. We were bothered with a heavy stomachache for three days.

**JA7KJR:** Recently I've been busy chasing Roadside Stations' points on HF-CW. I confirmed WAJA & JCC-400 award (only SAT).

\*\*\*\*\*

\*\*\*\*\*

**JA8AJE:** It's easy to work DX-pedition stations from Oceania, taking advantage of "Everyday Sunday." But on low bands, it's not easy. A chance of QRV is not so often and there are a lot of stations waiting. As to 80m, I have much difficulty working new entities. It depends on how many OC points I can work. I'm looking forward to more DX-peditions.
