HAMFAIR 2006 (Aug. 19-20)

KCJ participated in HAMFAIR 2006 held on Aug. 19-20. It was our 2nd participation. Fifteen members took turns welcoming a lot of visitors to our booth. The booth of KCJ was always filled with smiles and chatting of visitors. All the visitors seemed to have a good time in our booth. We had a great success in HAMFAIR 2006 !

WAJA award on SAT

JR3KQJ has achieved CW-WAJA (Worked all Japanese prefectures) on SAT only.

He started it in 1984 using AO-10. He logged more than 100 QSOs with AO-10. He has worked numbers of contacts with FO-12, FO-20, RS-12, FO-29 and so on.

He had already confirmed 43 prefectures before 1998, but he had to wait for a new trend in SAT so as to confirm the rest of four prefectures...

The latest trend in SAT has given us a lot of chance to make QSOs. The number of mobile-SAT operations has been increasing and this might make it possible to complete SAT-WAJA in several months period. Why don't you try SAT ?!

JR3KQJ's SAT QSOs

SAT	JA-CW	JA-SSB	JA-FM	DX-MIX	1stQSO
AO10	82	9	0	19	'84 03
FO12	69	69	0	0	'86 12
FO20	20	41	0	1	'87 01
AO13	22	8	0	35	'88 05
RS12	27	56	0	1	'97 01
FO29	53	9	0	1	'97 03
UO14	0	0	75	4	'01 08
AO27	0	0	3	0	'01 09
RS13	6	0	0	0	'02 03
AO7	1	0	0	0	'03 02
SO50	0	0	5	0	'03 02
AO40	19	0	0	26	'03 08
VO52	84	4	0	1	'05 07
AO51	0	0	13	0	'05 12

Mobile SAT operation

JH3HGI has been active on SAT from his car. He is very active on VO-52, using FT-857DM (uplink) and FT-100DM (downlink) with 3 elements Cross-Yagi ANT (145/430MHz).

Double-Dial CW QRPp TRX

JJ1NO made an entry to the homebrewed radio contest 2006 and received the second prize. The one he made was "Double-Dials CW QRPp TRX".

[40m band (7.000-7.030)] [100mW output] [CW only] [Fullbreak-in] [Side-tone] ...

VOICE OF MEMBERS

Short Break (2006-Jul.)

JH0PPS: Es season ! I'm enjoying high-bands operation. But it's not easy to get new KCJA points.

JA1BML: JARL started Internet Award Application system. Since any style of the card list is available, I tried to make a program which produces card lists using AJAHA software.

(<http://www.sho-nan.jp/JA1BML/?date=20060515>)
When I confirm 10250 points, I'd like to use it.

JA2MYA: I got a new DXCC point after long time. Since I had made a mistake in counting points, my AJA points got reduced.

JE6QFP: I received some QSL cards that I worked on SAT-mode, which I started the operation in last Nov.

JH4RGH: My JCA (CW) points got to 2811 points and JCA (MIX) 6428.

JA7TJ: I received 3Y0X QSL (on 40m CW). It gave me a new DXCC point after long time.

JA8AJE: I applied for four JARL awards using Internet Application Form. It was easy to apply and fast to receive response. When I did it first, I received the award before paying the fee.

Short Break (2006-Aug.)

JA1BML: I was in Aomori-pref. from 23 to 25 June. I had 485 QSOs from some cities and towns on high bands and SAT. Thanks for your call.

JJ1INO: Both of my main bands (40m&30m) have no good condx during the summer season. Instead I'm looking forward to having a lot of eyeball QSOs in the ham fair.

JJ1KXB: On 3rd June I received WAGA award (14MHz CW only) No.1291. I've confirmed 3 BANDS WACA and WAGA (7/10/14MHz).

9 months have passed since I started SAT. I'd like to try "mobile SAT" someday. See you on SAT.

JA2MYA: The error of my Ham-Log data was recovered by re-installation.
The domestic condx is getting better, but DX is no good...

JA3ATJ: The news such as "EU on 6m !" attracts me so much, but I have not much time sitting in front of RIG. I have much work for some groups. Besides I'm in charge of the community where I live...

JH3HGI: Owing to SAT, my AJA and KCJA points have been increasing.

JH4RGH: I came to be able to QRV on 6m after five years. It's tough for an apartment station (it is called "Apa-man") to operate multi bands.

JA8PON: The condx seems to be getting better. When high bands are not good, I'll try to look for new JCCs.

Short Break (2006-Sep.)

JA1BML: My car will be renewed with "599" number plates. I wondered if I should choose "599" or "1106" (my JCC number). I'd like to go joining the meeting in Sep. by the new car. Hope to meet members in 3 area on V/UHF bands from the car.

JJ1KXB: New DXCC entities such as 4O3T or KH8SI made me so excited in July.

JA2MYA: I got two new entities (KH8SI & YU6).

JE6QFP: I'm encouraging a ham (JF6***), who used to have a radio station and now is going to begin to QRV again. He has already applied for a license and now practicing keying with an electric keyer. I hope he'll be a member of KCJ in the near future.

JA8AJE: It is great fun to join in the ham fair since all I have to do there is only RADIO.

JA8PON: As new cities' QSL cards began to come, my JCC points gets to 810. I'm wondering if I should apply for JCC award...

The 16th General Meeting of KCJ

The 16th general meeting of KCJ finished successfully on Sept. 3. (in Osaka)

19 members took part in the meeting and had a good time chatting, eating, drinking and of course discussing.
